

# COMPLIANCE

FPT Global are committed to a 'Full Compliance Culture' where health, safety and environmental matters are of the highest priority in all activities.

Striving for continuous improvement, we follow the comprehensive Health, Safety, Environmental and Quality (HSE-Q) management system. The commitment of the management team ensures continuous training and development of the workforce and well-being of each employee associated with FPT Global.

We have a fully Implemented HSE-Q Management plan and policy which detail and defines the company expectations pertaining to safety awareness and a safety culture. All required governmental DG certification and accreditation required within each region has been procured and is kept up to date by our DG teams.
